

Get Two Scopes for the Price of One

When you purchase any eight-channel Keysight Infiniium EXR-Series oscilloscope along with a Keysight InfiniiVision DSOX4034A, you get both oscilloscopes for just the price of the EXR.

That's right, you effectively get two oscilloscopes for the price of one!

Numerous software packages for all Infiniium and InfiniiVision scopes make design, quality checks, and troubleshooting easy and consistent. Save time and money with software-assisted signal integrity and protocol testing.

Infiniium EXR-Series Oscilloscopes

Infiniium EXR-Series oscilloscopes offer up to 2.5 GHz unrestricted full bandwidth on up to eight channels with sample rates as high as 16 GSa/s per channel. This powerful combination can solve the most demanding designs for power rail distribution, power sequencing and integrity, multiple serial bus analysis, and many other applications. The EXR-Series offers extended capabilities with seven-in-one instrument integration: oscilloscope, logic and protocol analyzers, digital voltmeter, counter, Bode plotter, and waveform generator. The EXR-series also comes with Keysight's exclusive Fault Hunter tool, which can find one in a billion errors with just a few clicks.

InfiniiVision 4000 X-Series Oscilloscopes

Get more out of your upgradable InfiniiVision 4000 X-Series oscilloscope with seven-in-one instrument integration: oscilloscope, frequency response analyzer (Bode plots), logic analyzer / MSO, protocol analyzer, dual WaveGen arbitrary waveform generator, voltmeter, and frequency counter.

There has never been a better time to buy an EXR-Series scope, so take advantage of this offer now!

**Start date:**
